Dear Sir/Ms.:

The following question has been received:

**Question:** Do the "EACH" Specify pairs of these units or actual single units? If this is a pair that would make sense, but if it is a single unit then we would be off one. So, I guess my question is ... does the 37 EACH mean 74 Units/37 Pairs...and the 2 EACH 4 Units/2 Pairs?

**Response:** Each is considered a pair of RRFBs. So, 37 pairs on a two-way street and 2 pairs on a two-way street with AC power and DSRC.

Consider these changes and information prior to submitting your bid on **August 28, 2019.**

Sincerely,

George M. A. Macdougall P.E.
